“ Larry and I are so sorry to hear of Kathy's passing. I have many many memories of time spent with Kathy. She was a true friend of mine and we spent many hours at your kitchen table over coffee while our children played in another room. We laughed together, cried together, tried to solve the world's problems together. We shared recipes and ideas, and she was always there if I needed anything. She was special. How special? When young Mike got married, she knew we were going to attend the wedding so she made an extra layer of wedding cake for Larry because she knew he has food allergies and was concerned. Yes! Heaven has a new angel today!
