“ I met Victor at Brownell Jr High School about 1941 or 1942. I remember being in a play with him there. We played the parts of 2 angels. After the play, our teacher pulls me aside and whispers to me "Tom, I hate to tell you this, but Victor looked more like an Angel than you". And an Angel he was. We went on to East Tech High School and graduated in June 1947. We went our separate ways but kept in touch on and off later in life. Meeting Victor and Laura occasionally for breakfast at Slyman's downtown. He was still the Angel I knew in Jr High. He has accomplished so much in his life time. I have treasured the two autographed books he gave me. God be with you Victor and Bless your family.

“ Uncle Vic, when I think of you, I will remember the scratch of you beard on my cheek. Sundays at Grandma and Grandpa's with you brought the conversation to another depth (and sometime another decibel). I learned that engaging in the news of the day mattered. Families could sit around the table with coffee, tea, and toast talking, listening, and sometimes raising their voices but always beginning and ending with a kiss. You always let you love be known. You forged your own path in life and I am grateful for all the times our paths crossed. Thanks for your unconditional love.
