“ To the family of Coletta Freeman, I wanted to send my deepest condolences to all who are grieving the loss of this special lady. I was blessed in the fact that I knew Coletta and that I had the pleasure of spending time with such a wonderful woman. She touched my heart and was very dear to me. I will miss her, as we all will. I will always remember the times I got to spend with her both as a friend and as a caregiver. The memories that I will always have with me are from the time that I stayed with Coletta. We spent the entire week together talking, trying to catch the escape artist dog Holly and of course Coletta’s favorite shopping. That week flew by, but time spent with friends usually does. Coletta was very important to me and I will miss her greatly.

Love always,
Michele Trombley
