“eleanor was my great-grandma and i loved her so dear... her idol was bobby vinton which was neat and she would go see him as many times as possible. she also loved beanie babies.... i loved and still do love her dearly. even though she past awayed i still love her and i will always remember her. i used to go over her house over the summer to swim but mainly to see her. now i cant do either... when i saw her today i was about to cry but i didnt i felt it come up because i love her soo much and she was like a mommy to me and not a great-grandma. well i dont want to say to much but well at least now she will rest in peace and be with god, her son, and her husband...
