“ I first met Elida when she and Dart came to California. They were so excited about being on the west coast and starting a new life. They came with plans and dreams. Although they didn't get a chance to accomplish all they wanted to do, they had a chance to experience a different way of life and have some fun along the way. Rest in heaven, Elida.

I am so sad to see this. I worked with Elida at Lake East hospital when she was a nursing assistant. I remember her to be kind and compassionate. My sincere condolences to her loved ones.
