“ *Professor Prah! was a big reason that I went to Case. He taught several of my classes and was my advisor as well. It was clear that he loved his work and it came through in his teaching. He was a great teacher that really cared about his students. He knew everyone in our class, their interests, friends, and know them personally. He always made a point to support his students that played CWRU varsity athletics. I was on the football team and I remember him coming to our games each season and he also went to see my classmates play other varsity sports. He will be missed at Case, and his impact on the school and his students will live on.*
