“ My Uncle was a great guy. He was always making jokes and making you laugh. He used to give me two dollar bills and I have a stack of them and I will never ever part with them because they were from him and he just loved to give them to people he cared for. If you got one of them from him you were a lucky person because he thought a lot about you. Another thing that I will remember him for is that he loved his grandchildren so much. He would wear shirts with their pictures on them. I never seen him wearing a shirt without their pictures. This was his way of showing how proud he was of them and how much he loved them and how proud he was to be a grandpa. I will miss my Uncle at family gatherings as I know everyone else will as well.
