“ My thoughts and condolences go to Rob's extended family. I grew up with Rob during our school years in Midland, MI, as the Maisch family lived down the street from the Woollards. My brother and Rob's brother Mike were best friends and college roommates. Imagine my surprise in 1997 when I started a new job in Cleveland and learned that my co-worker Kris was married to a school mate from Midland, MI! Our families became "re-connected" when my brother Gary passed away from complications from diabetes in 1999. I saw Rob shortly after that and we talked about the connections between our families over the years. I saw Rob again a few months later when another childhood friend came to Cleveland to visit Rob. We had lunch together and reminisced about Sinclair St. where we grew up. Rob had such a wonderful sense of humor about his school days as reflected in his comic books. This Sunday when I read the notice, I was so sorry to hear about both Kris and Rob since I had left that employer in 2000. I hope my words bring some comfort or warm memories for Rob's extended family. It is heart-warming to see how persons in our lives remain connected to us no matter what our life circumstances.
