“ I can't express how much I love you, but you already know how much, and how much I will miss you. I will miss our 2 hour phone calls and all our laughs - especially you making fun of me, like you always said - sometimes deep down I should have been a blond - and all our tears together. All this is just not fair. I won't accept that you have left me. I need you to forgive me you know why. I just can't say goodbye, I will see you when I get there. You lean over and listen and you will hear me talk to you everyday. You will always be in my prayers and in my heart. Told my mom to look you up and watch over you till I see you. To my loving and most dearest friend - I will always love you - Cathie
