“ Uncle Beanie is one of the finest men that ever lived. He loved life dearly and enjoyed living every minute of it. Being his Godchild I have so many fond memories of him, too numerous to mention. But one of my most treasured times with my Uncle Beanie is the day that he walked me down the aisle to get married. There was only one man who could have stepped in to be my dad for the day and that was my Uncle Beanie. He was everyones buddy and pal. We will all miss him dearly, but his wonderful spirit will live with us forever. Thanks Uncle Beanie for your gift of life that you gave to each of us. We know that you will continue to smile on all of us forever. We love you. The Beltowski's

“ He was our, epecially mine, greatest Uncle. I remember growing up with him in our house. He would always tease me to eat lettuce, so I could climb trees. Then when I did climb them He would yell at me and I asked him why? I ate my lettuce. janie
He was a "buddy" to everyone and my children loved him esp. when they were small and he taught them I love you in sign language.
